

# Seaplane Preflight Postflight and Base Operations Seminar

Austin will share best practices learned from years of seaplane flying and training in the northwest. He will discuss effective seaplane preflight, postflight and base operations. He will talk about preflight for water operations, launch, dock, ramp and retrieval procedures. Using a scenario based approach, particular focus will be on Renton W36 and local Pacific Northwest operations, including noise abatement strategies, operations around wildlife, and seasonal wind and water conditions.

**Directions:** Located at the Renton Municipal Airport. This seminar will be held in the Rainier Flight Service classroom.

## A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafetyTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
